

IN THE CLAIMS:

Please cancel claims 1-19 and 28-31 without prejudice or disclaimer.

Please amend the remaining claims as follows:

- 1-19. (cancelled)
20. (original) A borosilicate cylinder comprising a UV light source therein.
21. (original) The cylinder of claim 20, further comprising a laser printer integrated therewith.
22. (original) A chemical compound comprising:  
an ultraviolet light curable resin;  
toner particles suspended in the resin; and  
a charge director.
23. (original) The compound of claim 22, further comprising a surfactant to facilitate the suspension of the toner particles in the resin.
24. (original) The compound of claim 23, wherein the surfactant comprises nonoxinal.
- 25 (original). The compound of claim 22, wherein the charge director comprises quaternary ammonium salts.
26. (original) The compound of claim 22, wherein the compound is inserted into a receptacle of a laser printing apparatus.

27. (original) The compound of claim 22, wherein the compound is used with a liquid electro-photography printing apparatus.

28-31. (cancelled)

32. (new) A laser printer comprising:  
borosilicate cylinder comprising a UV light source disposed therein for curing toner deposited on a print medium by said laser printer.

33. (new) The printer of claim 32, further comprising a supply of toner, said toner comprising:

an ultraviolet light curable resin;  
toner particles suspended in the resin; and  
a charge director.

34. (new) The printer of claim 33, further comprising a surfactant to facilitate the suspension of the toner particles in the resin.

35. (new) The printer of claim 34, wherein the surfactant comprises nonoxinal.

36 (new) The printer of claim 33, wherein the charge director comprises quaternary ammonium salts.
